MG è presente in Italia dal 1958, anno in cui, su iniziativa dell'imprenditore Monti Giovanni, viene fondata a Lazzate, specializzandosi nella produzione di cilindri e serrature per porte.

MG SERRATURE fa il suo ingresso nel settore della ferramenta, inizialmente a livello regionale, per espandersi nei successivi decenni a livello nazionale ed internazionale. Oggi MG SERRATURE è presente in diversi paesi tramite distributori o rivenditori specializzati. Le sinergie prodotte in un contesto internazionale hanno contribuito alla crescita della società: la costante attenzione alla qualità e all'innovazione tecnologica ha contribuito a creare, nel corso del tempo, una vasta gamma di prodotti, molti dei quali certificati secondo le normative europee.

La linea delle serrature per alluminio è stata ampliata con la produzione di serrature da montante e multipunto, per il settore legno è stata inserita una nuova gamma di serrature da infilare disponibile in varie dimensioni e finiture.

I cilindri della serie HSP, con chiave brevettata a duplicazione controllata, possono contare sulla versione "modulare" che garantisce un ulteriore grado di sicurezza ed un'ampia versatilità per gli specialisti.

Tutti gli articoli sono totalmente prodotti nella nostra sede operativa di Lazzate, avvalendoci unicamente di fornitori italiani per l'acquisto dei componenti e delle materie prime.

Certificazioni.

Fin dalla sua fondazione, MG SERRATURE si è ispirata ai principi basati sull'analisi ed il miglioramento continuo per garantire il massimo livello di soddisfazione dei propri clienti attraverso la qualità dei prodotti offerti e dei servizi ad essi associati.

Questo impegno ha portato MG SERRATURE a conseguire già dal 1998 la certificazione del proprio sistema di gestione per la qualità secondo la norma UNI EN ISO 9001 rilasciata da ICIM.

MG SERRATURE ha sempre posto grande attenzione all'ambiente, assumendo un impegno volto alla riduzione degli impatti ambientali, perseguendo e mantenendo la piena conformità alla legislazione applicabile.

Tale impegno, volto al miglioramento continuo, è confermato dalla certificazione del proprio sistema di gestione ambientale secondo la norma ISO 14001 rilasciata nel 2011 da ICIM.

MG SERRATURE, specialized in the production of cylinders and door locks, has been operating in Italy since 1958, on initiative of the entrepreneur Giovanni Monti.

Initially MG SERRATURE established itself in the regional market and at a later stage grew nationwide and worldwide. Today MG operates in several countries through distributors and specialized sellers.

The participation in the international market has been decisive for the development of the business: the quality attention and the technological innovation over the time promoted the realisation of a wide choice of specialized products, many of whom have been certified by the European normative.

The range of the locks for aluminium has been extended with the production of metal doors locks and multipoint locks, while a new selection of mortice locks has been introduced in the wood sector, available in several sizes and finishings.

The "HSP" Cylinders series, with patented keys and controlled key duplication, has been improved with the introduction of the "modular" version, ensuring a further safety grade to the costumers and a broad versatility to the specialists.

All MG items are entirely produced in its operative offices in Lazzate and the components and the raw material are bought from Italian suppliers only.

Certifications:

Since its foundation MG SERRATURE has constantly invested on the improvement of the quality of its products and given particular prominence to the customer assistance in order to offer the best service to its Clients. This led the company to the attainment of the certification UNI EN ISO 9001 issued by ICIM, for the professionalism of its quality management system.

MG SERRATURE has always paid serious attention to the environment, taking charge of reducing the environmental impact in accordance with the applicable regulation.

This constant commitment has been confirmed by the attainment of the certification ISO 14001 issued in 2011 by ICIM, for MG' s environment management system.

Per evitare di avere un numero eccessivo di chiavi, è possibile realizzare dei “sistemi ammaestrati” che permettono di aprire con una sola chiave diverse porte e cancelli della stessa abitazione.

To avoid having an excessive number of keys, it's possible to carry out some “master key systems” that allow you to open different doors and gates of the same building with a single key.

KA= impianto con cilindri della stessa cifratura che funzionano con la stessa chiave.

KA= plant of cylinders having the same code that operate with the same key.

MK= impianto con cilindri a chiave maestra. In questo caso, ogni porta di un sistema ha la propria chiave specifica, ma è possibile aprire ciascuna porta con un'unica chiave in aggiunta, detta “chiave maestra”, con innegabili vantaggi in termini di comodità. È inoltre possibile gestire entrate comuni grazie al sistema a cilindro centrale. (Es: tutte le chiavi degli appartamenti privati di un condominio, ovviamente diverse tra loro, possono contemporaneamente aprire lo stesso portone condominiale).

MK= plant with master key cylinders. In this case, every door in a system has got its specific key, but in addition it's possible to open any door with the same key, called “master key”, with undeniable advantages of convenience. Moreover, it is possible to manage communal access by means of the central cylinder system. (For example: the keys to every private apartment of a building, which are obviously all different, can at the same time open the main building entrance).

GMK=è un impianto a più livelli, in cui, oltre alle chiavi di ogni singola porta e alle chiavi maestre che aprono gruppi di cilindri, esiste una chiave maestra superiore a cui fa riferimento tutto il sistema. Questo impianto è particolarmente indicato per le strutture ad apertura gerarchica, dove per esempio il direttore può accedere a tutti i locali, mentre i dipendenti ai locali prestabiliti.

GMK= it's a plant with different levels, where, in addition to the keys of the individual doors and to the master key opening groups of cylinders, there's a superior master key that manages the whole system. This plant is particularly suitable for hierarchical access structures, where for example the manager can access every room and the subordinates only pre-established rooms.

CA= chiave cantiere. Il cilindro funziona con una chiave provvisoria, detta “cantiere”, fino alla consegna dell’abitazione al proprietario, il quale, al primo utilizzo della propria chiave personale, modifica in modo irreversibile la cifratura del cilindro escludendo il funzionamento della chiave cantiere.

CM=il sistema è del tutto identico a CA con la sola differenza che la chiave “cantiere” inizialmente apre un gruppo di diversi cilindri.

CA= building key. The cylinder operates with a provisional key, called “building key”, until the delivery of the habitation to the owner, who, after using his personal key the first time, changes the cylinder's code irreversibly to invalidate the builder's key.

CM= this system is exactly like CA. The only difference is that the “builder's key” opens a group of different cylinders.

VR=è un impianto vario a 3 livelli. Il sistema è corredato di 3 diversi tipi di chiavi: il cilindro inizialmente funziona con la chiave contrassegnata dal colore rosso (1 livello). In un secondo momento, la chiave contrassegnata dal colore verde (2 livello) permette di ricodificare il cilindro annullando l'efficacia della prima chiave (quella rossa). Con il terzo tipo di chiave, quella contrassegnata dal colore nero, è possibile eseguire un'ulteriore ricodificazione che invalida le chiavi usate in precedenza.

VR= is a varied plant with 3 levels. The system is equipped with 3 different kinds of keys: at the beginning the cylinder operates with the key that is countermarked in red (1 level). Afterwards, the green countermarked key (2 level) allows you to codify the cylinder annulling the efficacy of the first key (red). With the third kind of key, that is countermarked by black, it's possible to effect a further codification to invalidate the keys used before.

Con la versione modulare si possono produrre cilindri fino alla lunghezza totale di 212 mm. (121-91)
With the modular version, it's possible to realize cylinders till the following total length: 212 mm (121-91)

Mezzo cilindro MODULARE con taglio e camma regolabile in 8 posizioni
MODULAR half cylinder with cut and adjustable cam in 8 positions

1. PREMESSA

- 1.1 Qualsiasi contratto tra MG Serrature S.p.A. (di seguito il "Venditore") ed il cliente ("Acquirente") avente sede nel territorio italiano ed avente ad oggetto la vendita di prodotti realizzati dal Venditore (di seguito i "Prodotti") sarà disciplinato dalle presenti Condizioni Generali di Vendita che sostituiscono le precedenti condizioni generali di vendita del Venditore, nonché tutti i precedenti accordi fra il Venditore l'Acquirente.
- 1.2 Ciascun contratto di vendita s'intenderà perfezionato con la ricezione da parte del Venditore della propria conferma d'ordine allegata alle presenti Condizioni, debitamente sottoscritte dall'Acquirente ovvero, qualora il Venditore non riceva tale documentazione, decorsi 15 giorni dall'invio da parte del Venditore della conferma d'ordine, a mezzo di raccomandata con ricevuta di ritorno, unitamente alle presenti Condizioni.

2. PREZZI

- 2.1 I prezzi dei Prodotti sono quelli indicati nel listino prezzi del Venditore vigente al momento dell'ordine e possono variare in qualsiasi momento a discrezione del Venditore. Tali prezzi si intendono al netto dell'IVA, di tasse, diritti doganali e qualsivoglia altro onere o imposta eventualmente gravante sui Prodotti nel paese dell'Acquirente.
- 2.2 Per ordini di importo inferiore ad euro 300,00 verranno addebitati all'Acquirente euro 15,00 per spese fisse.
- 2.3 Le spese di imballo ordinario sono comprese nel prezzo.

3. TERMINI DI PAGAMENTO

- 3.1 I termini di pagamento saranno decisi di volta in volta fra le parti. In caso di ritardo nel pagamento l'Acquirente sarà tenuto a pagare gli interessi moratori calcolati ai sensi dell'art. 5 del D.Lgs 9 ottobre 2002, n. 231.
- 3.2 Il Venditore si riserva il diritto di sospendere l'esecuzione di qualsiasi ordine o consegna in caso di ritardo dell'Acquirente nel pagamento.

4. CONSEGNA E PASSAGGIO DEL RISCHIO

- 4.1 Franco destino per spedizioni di valore superiore a euro 1.000,00 imponibile, con imprese di trasporto scelte dal Venditore.
Franco destino con addebito all'Acquirente delle spese di trasporto per spedizioni di valore inferiore a euro 1.000,00 imponibile, con imprese di trasporto scelte dal il Venditore.
In ogni caso, il rischio di perimento dei prodotti si trasferisce in capo all'Acquirente con la consegna dei Prodotti al vettore incaricato del trasporto dal Venditore.
- 4.2 I termini di consegna indicati nell'ordine e/o conferme d'ordine si intendono puramente indicativi. In ogni caso, il Venditore non sarà considerato in alcun modo responsabile in ipotesi di ritardo nella consegna dovuto a cause di forza maggiore come incendi, scioperi, atti della pubblica autorità, ritardi dei mezzi di trasporto pubblici o qualsiasi evento che non possa essere ragionevolmente previsto od al quale non sia possibile rimediare con l'ordinaria diligenza.

5. RECLAMI

- 5.1 L'Acquirente dovrà informare per iscritto il Venditore di eventuali vizi apparenti rilevabili dall'esame esteriore dei Prodotti o dei relativi imballaggi, mediante lettera raccomandata R/R, a pena di decadenza entro 10 giorni lavorativi dalla data di ricevimento dei Prodotti stessi.
- 5.2 I reclami relativi a difetti dei Prodotti non individuabili mediante un diligente controllo al momento del ricevimento (vizi occulti), dovranno essere comunicati al Venditore, mediante lettera raccomandata R/R, a pena di decadenza entro 10 giorni lavorativi dalla data della scoperta.
- 5.3 Qualora l'Acquirente abbia presentato tempestivo reclamo, la garanzia del Venditore si limiterà alla sostituzione dei Prodotti difettosi o non conformi alle specifiche tecniche riportate nel Listino Prezzi del Venditore ovvero consegnate all'Acquirente unitamente ai Prodotti stessi, previa restituzione dei Prodotti difettosi o non conformi al Venditore stesso. I costi ed i rischi di trasporto, di rimozione e di installazione dei Prodotti, così come qualsiasi altro costo indirettamente correlato alla riparazione di questi, non sono coperti da garanzia e restano a carico dell'Acquirente.
- 5.4 In pendenza di un reclamo, l'Acquirente non avrà diritto di sospendere o comunque ritardare i pagamenti dei Prodotti oggetto di contestazione. La denuncia di un vizio, a prescindere dalla sua natura apparente od occulta, non costituisce inadempimento di notevole importanza ai sensi dell'art. 1455 cod. civ..

6. GARANZIA

- 6.1 Il Venditore garantisce all'Acquirente per la durata di un (1) anno, decorrente dalla data di emissione della fattura, che i Prodotti forniti sono conformi alle specifiche tecniche indicate nel Listino Prezzi del Venditore ovvero consegnate all'Acquirente unitamente ai Prodotti stessi.
- 6.2 La garanzia sarà esclusa in caso di (i) uso dei Prodotti non conforme alle specifiche tecniche; (ii) danni derivati ai Prodotti per fatto non imputabile direttamente al Venditore; (iii) trasporto o stoccaggio dei Prodotti effettuato a cura dell'Acquirente con mezzi inadeguati; (iv) manomissione dei Prodotti; (v) danni causati da installazione impropria.
- 6.3 Qualora l'Acquirente abbia subito una perdita o un danno a causa di Prodotti viziati o non conformi a quanto concordato, la responsabilità del Venditore non potrà eccedere il valore dei Prodotti al momento della vendita.
- 6.4 Il Venditore non potrà essere ritenuto responsabile di perdite o danni subiti dall'Acquirente conseguentemente a cancellazioni di ordini da parte dei propri clienti, ritardate consegne ai clienti, nonché per qualsivoglia altro danno inerente ai rapporti dell'Acquirente con i propri clienti.
- 6.5 Il Venditore non potrà altresì essere ritenuto responsabile di perdite o danni subiti dall'Acquirente in conseguenza di diritti esercitati da propri clienti sulla base delle norme a tutela dei consumatori in materia di garanzia di conformità dei Prodotti, restando inteso che all'Acquirente non sarà in ogni caso consentito l'esercizio nei confronti del Venditore dell'azione di regresso prevista dall'art. 131 del D.lgs 206/2005 oltre i termini garanzia di cui al presente articolo.

7. LEGGE APPLICABILE

- 7.1 Le presenti Condizioni Generali di Vendita sono disciplinate dalla legge Italiana.

8. RISOLUZIONE DELLE CONTROVERSIE

- 8.1 Qualsiasi controversia, a qualunque titolo connessa ai contratti di vendita e/o alle presenti Condizioni Generali, che dovesse insorgere tra le parti, sarà sottoposta al tentativo di conciliazione previsto dal Regolamento di Conciliazione della Camera Arbitrale di Milano.
- 8.2 Nel caso in cui il suddetto tentativo fallisca, la controversia sarà devoluta alla competenza esclusiva del Tribunale di Milano.

1. PREAMBLE

- 1.1 These Terms and Conditions of Sale shall apply to any sale transaction between MG Serrature S.p.A. (hereinafter the "Seller") and the customer (the "Buyer") located outside the territory of Italy and with regard to the sale of products manufactured by the Seller (the "Products"). These Terms and Conditions shall supersede all and any previous terms and conditions of sale of the Seller, as well as any other agreement between the Seller and the Buyer.

- 1.2 Each sale agreement shall be considered as agreed upon receipt by the Seller of his own order confirmation together with this Terms and Conditions, both duly executed by the Buyer or, if such a document is not received by the Seller, within 15 days from the date of dispatch by the Seller of the order confirmation together with this Terms and Conditions by return receipt registered mail.

2. PRICES

- 2.1 The prices of the Products are those indicated in the price list of the Seller in use at the date of the purchase order and may vary from time to time at Seller's discretion. Such prices shall not include VAT, taxes, custom taxes, as well as any other cost or expense that could be eventually applicable to the Products in the country of the Buyer.
- 2.2 An additional charge of euro 15,00 for fixed expenses shall be paid by the Buyer, should the order's amount be not in excess of euro 300,00.
- 2.3 The prices indicated in the price list of the Seller include the ordinary packaging of the Products for transportation.

3. PAYMENT TERMS

- 3.1 The payments terms shall be agreed upon each time between the Seller and the Buyer. Should the Buyer fail to pay within the due terms, the Buyer shall be bound to pay an interest calculated in accordance with the provisions of art. 5 of Italian Legislative Decree October 9, 2002, n. 231.
- 3.2 The Seller shall not be bound to execute any order or delivery, should the Buyer delay the payments.

4. DELIVERY AND TRANSFER OF RISK

- 4.1 Save a different agreement between the Seller and the Buyer, deliveries of the Products shall be made CPT (Incoterms 2000). The Seller shall pay the cost of carriage necessary to bring the Products to the agreed destination.
- 4.2 In any case, the Buyer shall bear all risks of loss or of damage to the Products from the time they have been delivered to the carrier appointed by the Seller.
- 4.3 The delivery date stated on the orders and/or orders confirmations is purely indicative. In any case, the Buyer shall not be held responsible in case of delay in delivering the Products due to force majeure causes such as fire, strike, acts of public authorities, or delays or default caused by public carriers or for any other action or event which cannot reasonably forecast and which cannot be overcome with the ordinary due diligence.

5. CLAIMS

- 5.1 The Buyer shall communicate in writing (by means of a registered letter with return receipt) to the Seller the defects detectable by an external survey of the Products or of its packages, within not later than 10 (ten) working days from the receipt of the Products.
- 5.2 The claims concerning those defects of the Products that are not detectable by a diligent survey at the time of the delivery (hidden defects) shall be communicated to the Seller through a registered letter with return receipt, within 10 (ten) working days from their discovery.
- 5.3 Should the Buyer timely make the claim, the Seller's guarantee shall be limited to the substitution of the Products defective or not consistent with the technical specifications provided for by the Seller's Price List or delivered to the Buyer together with the Products. Such a guarantee is conditional on the restitution of the defective or non consistent Products to the Seller. The costs and the risks of transportation, removal and installation of the Products or of the parts of the Products, as well as any other cost indirectly correlated to their reparation, shall be not covered by the warranty and be intended at Buyer's charge.
- 5.4 Pending a claim, the Buyer shall have no right to suspend or delay the payments of the Products. The complaint of a defect, both apparent and hidden, shall not represent an important contractual breach according to art. 1455 of Italian Civil Code. Any right of termination of the agreement by the Buyer shall be also excluded.

6. WARRANTY

- 6.1 The Seller warrants to the Buyer that the Products shall meet the technical specifications provided for by the Seller's Price List or delivered to the Buyer together with the Products for 1 year starting from the issuance of the invoice.
- 6.2 The warranty shall be excluded in case of (i) damages caused by an usage of the Products inconsistent with the technical specifications (ii) damages occurred to the Products due to a fact not directly ascribable to the Seller, (iii) transportation or stockpiling of the Products carried out by the Buyer by means to be considered as inadequate for the Seller, (iv) damages due to an improper keeping or maintenance of the Products, (v) damages due to an improper installation.
- 6.3 Should the Buyer incur in a loss or damage due to defective or non consistent Products, the Seller's liability shall not exceed the value of the defective Products at the date of their sale.
- 6.4 In particular, the Seller shall not be liable in case of loss or damage suffered by the Buyer for cancellation of clients' orders, penalties for delayed deliveries to clients, and for any other damage, penalty or reimbursement due in connection with the commercial relationship between the Buyer and its clients.
- 6.5 The Seller shall not be liable also in case of loss or damage suffered by the Buyer for end-users' claims in connection with defective Products, being understood that the Buyer hereby waives and shall not be entitled to exercise the right of recover vi-à-vis the Seller after the expiration of the term of the guarantee sets forth above.

7. GOVERNING LAW

- 7.1 These General Conditions shall be governed by the United Nations Convention On Contracts For The International Sale Of Goods (Vienna, 1980). In the event a specific matter is not regulated by said Convention, the law of the State of the Seller shall apply.

8. DISPUTE RESOLUTION

- 8.1 All disputes arising out of any sale agreement between the Seller and the Buyer, including any question regarding its existence, validity, interpretation or termination, shall be submitted to the mediation attempt provided by the mediation service of the Chamber of Arbitration of Milan.
- 8.2 If the attempt fails, the dispute shall be settled by arbitration under the Rules of the Chamber of National and International Arbitration of Milan. The Arbitral Tribunal shall consist of a sole arbitrator appointed pursuant to those Rules. The Arbitral Tribunal shall decide in accordance with the laws of Italy. The seat of the arbitration shall be Milan and the language shall be English.
Alternatively, if the attempt fails, the dispute shall be exclusively referred to the jurisdiction of the Court of Milan, Italy.
